

Let's Talk about Grass

Dumpster for Grass Clippings

Grass clippings can be hauled to dumpster located on 3rd St. NW (North of the FSA Office across the street to the north). These dumpsters are for grass clippings ONLY! (No branches, household garbage, plastic, cardboard is allowed). If the grass clippings are in a plastic bag, please dump clippings into the dumpster and take plastic bag with you.

Blowing grass clippings into the Street

It is once again time to remind all residents it is an infraction on City Ordinance to blow your grass clippings into the street. Infractions can result in fines from \$25 to \$500. When clippings are blown into the street, they move into the storm sewers. If heavy rain occurs, build up of the clippings in the sewers restrict the flow of water and can cause flooding in the storm sewer locations. Please refrain from blowing clippings into the street.

Grass and Weeds Maintenance

Residents and property owners are encouraged to take appropriate grass & weed maintenance measures. The maximum height allowed by ordinance is 12". Mowing and trimming of tall grass and useless vegetation helps discourage mosquitoes. The Bowman Police Department encourages those receiving violations to remedy the problem and continue upkeep of the property without additional requests. Persons not complying with the request for compliance can and may face a citation for the violation. The City will then perform the necessary work with the expenses being charged against the property owner by special assessment under the manner prescribed by law.
