

Do you participate ....  
in the NDPERS 457 Deferred Compensation Plan?

Are you planning to set aside a little bit of your raise toward supplemental retirement savings this year? Or maybe you just need to get started? An easy way to sign up or adjust your supplemental retirement savings is available through the Member Self Service link on the NDPERS website.

#### How do you get started?

- Go to the Icon labeled “**PERSLink Member Self Service**” on the NDPERS Homepage at [www.nd.gov/ndpers](http://www.nd.gov/ndpers).
- Log in and select “**NDPERS Plans**” on the left of the screen
- Click on “**Deferred Compensation**”. Review the necessary steps and click on the dropdown to indicate whether you will be *waiving* or *enrolling* in deferred compensation
- Then click on “**Begin Process**”
- Pick which type of enrollment you want:

If you are not already in the deferred compensation plan and choose “**Quick Enrollment**”, you will be set up in the Companion Plan for \$25 month in the Lifecycle Funds (based upon your estimated retirement age) with TIAA-CREF. Just click “**Next**” check the box at the bottom of the screen and click on the “**Finish**” button.

If you choose “**Regular Enrollment**” you will be asked how much you want to defer, what company you want your savings to go to and when you want deductions to start. Afterwards, just click “**Next**”, check the box at the bottom of the screen and click on the “**Finish**” button.  
(When selecting your own provider, make sure you contact them to setup your account allocations prior to your first deduction.)

If you are already in the deferred compensation plan but want to increase your deduction amount, select “**Change Amount**” next to the Provider Name.

No matter which route you choose, you can take small steps toward saving for your retirement with just a few clicks!
