

Minutes of the Bowman Parks & Rec Special Board meeting held on April 28,2020 at 7:00PM at Rouzie Rec Center

Present: Wilke, Johnson (by virtual), Wokal, Allerdings, Director Walby, Guests Jennifer Jackson (by virtual) and Shawn Senescal (by virtual) from JLG Architect

Meeting called to order by Chairman Chris Johnson at 7:00 PM

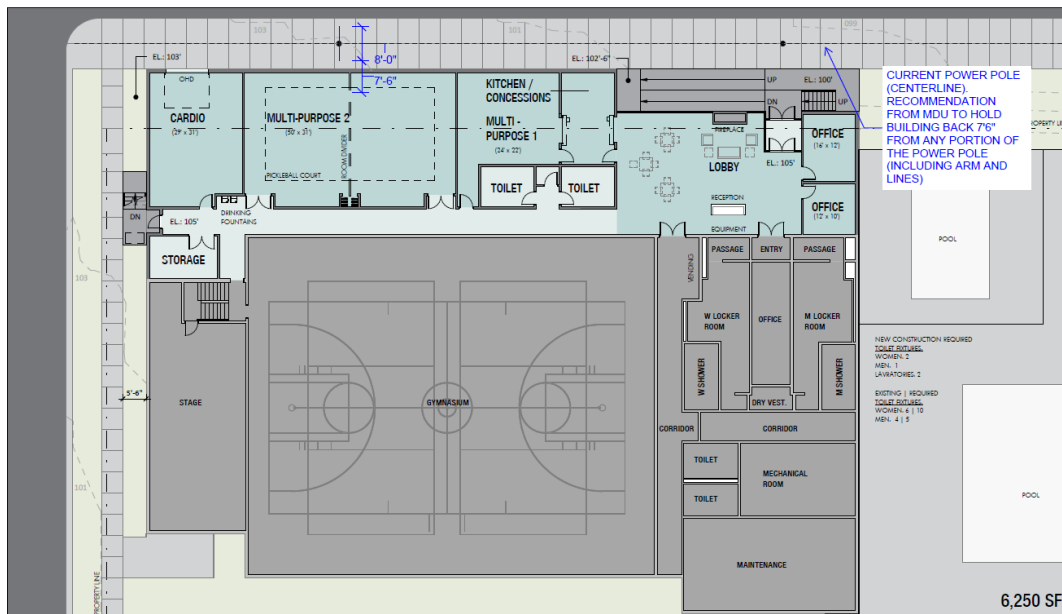

Jackson and Senescal presented four options for the north addition to the Rouzie Rec Center. Discussion included code for toilets, the property line, MDU power lines, the grade/ramp to entry, and the west side exit. Option A was the largest (6250 SF) with the building going to the existing north sidewalk, Options B (5700 SF), C (5900 SF) & D (5870 SF) were 8 feet from the MDU poles that are in 2 locations in the middle of the north sidewalk. Each option was reviewed and discussed. Inputs from each were noted on the drawings relating to restroom location made more sense on the west end, storage off the multi-purpose space, concessions and equipment needs, coffee bar outside the kitchen, fireplace centered for a larger effect, cardio room machines, connection between gym and west side of addition and stair remodel, generator/electrical inlet would need to be moved, and mechanical systems space needs to be developed.

Jackson and Senescal will take this input and present updated option designs and provide a cost estimate based on the revised plan.

The next Rec Center Addition Planning meeting was not scheduled.

Clerk – Nelsen

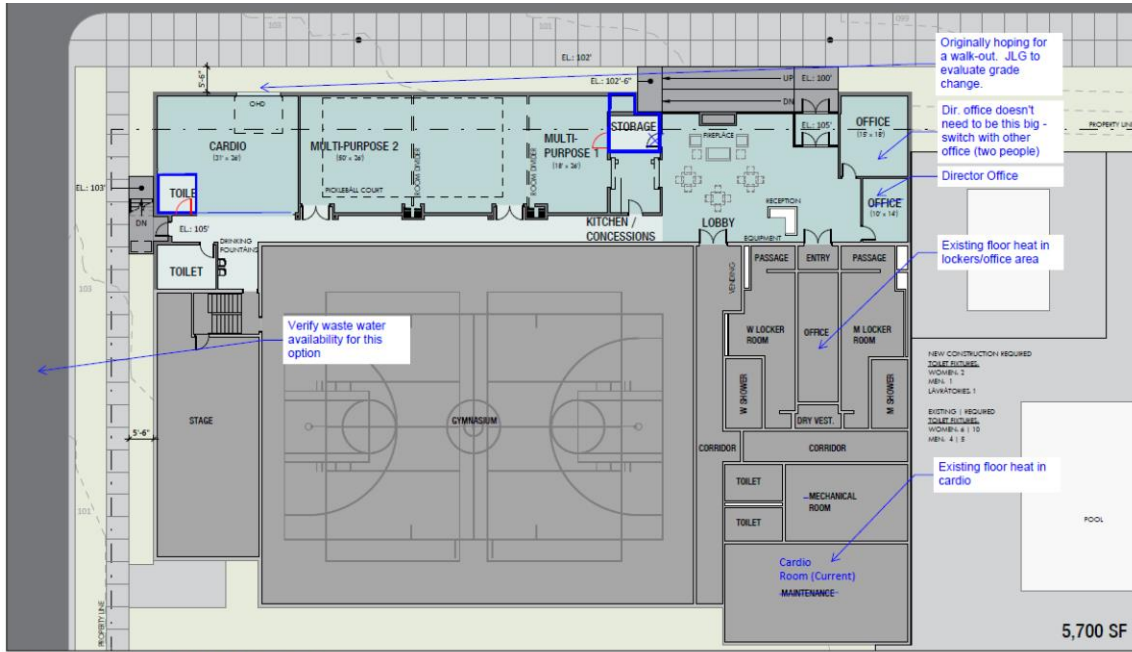

President - Johnson
